Advertisements will be published from six to twelve days at Two Cents a Line for each insertion, including the first.

CHEAPER THAN THE CHEAPEST;  
"BETTER THAN THE BEST."  
Is our Rule for Book and Job Printing.

We are authorized to announce O. G. STRONG a candidate for City Marshal at the approaching November election. (aug9td)

## Wanted!

At this Office, TWO COMPOSITORS.

A correspondent, "Ada," informs us that she was favored with a delightful serenade, a few evenings ago, and requests us to thank the serenaders through the paper.

Rev. E. D. Emerson, a practiced and skillful teacher, having been strongly solicited to establish a classical school for boys, will commence such a school in September. Such a school has been much needed, and, as Mr. Emerson is a competent teacher, we doubt not such encouragement will be extended as will make it the foundation for a large seminary.

We are indebted to Mr. Samuel Lafeyre for a bucketful of first class eating apples. Not an unwelcome present, we assure him and other liberal friends who may happen to have good apples. They look well alongside of the fine damson plums sent us by Rev. John M. Johnson, of Ralls county.

The Hannibal City Liquor Law Reform Association will meet next Monday evening, at the Baptist Church. All the members are earnestly urged to attend, as business of much importance will be transacted.

The dram-shops of Hannibal have all been closed except one, which will continue its existence until the 2d of September. Its owner, who takes the matter good humoredly, calls it the "Lone Star." Liquor or no liquor selling will doubtless be made a test question in the election of city officers next November. This is certainly the only way to accomplish permanent results.

Mr. John Wise, the aeronaut, is daily expected in St. Louis. He proposes to make a series of ascensions from that place—the first one to be to-morrow afternoon. He intends making a trip from St. Louis to New York, to test the practicability of crossing the Atlantic in an aerial flight.

On the 2d inst., the platform cars on the Delaware and Belvidere road, containing about 200 workmen, returning from making some repairs on the Delaware canal, ran off the track near Lambertville, killing 10 and wounding 12 or 15—all Irish laborers.

The power press on which the Columbia Statesman is printed is run by horse power.

The Columbia Statesman tells of a stalk of corn sixteen feet eight inches high, raised by Mr. B. F. Fullenwider, of Boone county. The crop of corn is good this year in Marion and Shelby counties, and in other counties of this section, also. If any of the farmers have corn like Mr. Fullenwider's, we should be glad to hear from them.

The editor of the St. Charles Chronotype has been shown a stalk of timothy six feet eight inches tall.

A lot of the new postage envelopes has been received at the Hannibal postoffice.

HANNIBAL AND ST. JOSEPH RAILROAD.—The St. Louis News, after noticing the fact that the Board of Directors had ordered the immediate construction of an additional hundred miles of the road, adds:

This is good news. Missouri bids fair to be ere long, in the front rank of Western States, in the matter of railroad improvements. Saint Joseph and Hannibal will become very rapidly, large and important cities.

A dispatch from New Orleans, dated August 2d, says that the number of deaths from Yellow Fever, for 48 hours ending Monday, was 253. During the same period there were 37 deaths from other causes—making a total of nearly 300 in 48 hours!

A duel was fought near Philadelphia on the 3d inst., between John Dunovant of Chester, and J. Davidson Leigare, of Charleston. The latter was killed at the first fire.

STARVATION IN SPAIN.—It appears that the miserable condition to which Ireland was reduced a few years ago, is paralleled by what is now taking place in Spain. A writer in a French paper says:

In vain the venerable Bishop of St. Jacques, in presence of more than six hundred unfortunates, resembling moving corpses, who daily besiege his gate, has sold his mules and his carriage. In vain has he reduced himself and his servants to the merest necessities in order that he might give the rest to those who perish of hunger. All that he or the other bishops and clergy, all that the government can do, according to the "Esperanza" is but a drop of water to extinguish the conflagration. When we speak of the government, however, we must remember that a last contribution made by it of 3,000,000 of reals had not been distributed.

[COMMUNICATED.]

Died, At his residence in this county, on the 25th of July, ult., MARK BIRD, Sen., in the 71st year of his age.

Thus, another pioneer and worthy man has been gathered from among us. The deceased was the last of several brothers. He leaves an aged widow and five sons, besides a large family connexion to mourn his loss. He was born in Shenandoah county, Virginia, and at an early age was removed to Kentucky; from thence he removed to Ohio, and thence to this State and this neighborhood in 1830. He was a pioneer and early settler in these States! What revolutions, what changes in the life of one man!—A first settler in Ohio, Kentucky and Missouri, three great States, now abounding in wealth, population and enterprise, yet in his day, until latterly, without population, wealth, or public or private conveniences, in contact with Indians, and in daily peril. In him we lose a model of the early pioneer of the West. Of manly form, an honest mind and an honest man: a perfect man, without fiction! Just to all, a kind husband, parent, neighbor and friend—independent in his moral and political sentiments, and frugal and industrious in his habits and domestic concerns, he was always free from want, and in easy circumstances. For some five years the deceased had been afflicted with paralysis, which for the last eight months confined him to his room. There are many interesting incidents in the frontier life of the deceased, but which the writer cannot recount with sufficient accuracy. D.

THIRD DISTRICT.—Although not yet "out of the woods," we think we may congratulate the Democracy on the defeat of that odious nullifier, Claib. Jackson. A gentleman who arrived in this city yesterday from Canton, in that district, reports that when he left, the returns showed Lindley to be 800 ahead of Jackson, and the general impression was that he would be elected by about 400, as the counties to be heard from were expected to give Jackson about 400 votes. This opinion is further corroborated by the fact that the Republican despairs of Jackson's success.—[St. Louis Democrat.]

THE SECOND DISTRICT.—The subject of the next Congressional election is already being discussed in political circles. The following gentlemen are spoken of as probable aspirants for the Whig nomination in this district: Maj. Jas. S. Rollins, and Col. W. F. Switzer, of Boone; Hon. Preston B. Reed, of Callaway; Capt. Wm. Carson, and Thos. L. Anderson, Esq., of Marion.—[Fulton Telegraph.]

UNEXPECTED REVELATIONS FROM CHINA. The veil which has so long shrouded the great movement in China from the eye of the world at large, is being gradually withdrawn. The sights disclosed are rather startling. The revolutionists it seems have been converted to Christianity! Heretofore it has been supposed that the Chinese cherished a hatred of the Christian name. The change is an unexpected one. It must have been brought about by American missionaries, and the introduction of the Bible.—The fact that the converted Chinese are Protestants, is not therefore remarkable.—St. Louis Intelligencer.

RANDOLPH COUNTY PAPER.—Dr. J. H. Herndon proposes to publish a paper in Huntsville, Randolph county, to be called the "Huntsville Recorder."

NORTHERN CROSS RAILROAD.—We had supposed that the additional subscription of \$100,000 to the Northern Cross Railroad, which was agreed to on Saturday last by the citizens of Quincy, with such remarkable unanimity, was designed for the completion of the Northern Cross Railroad to Meredosia. We learn that this is not the case; that this subscription is designed to complete the road to Galesburg. So we find that, after all, there is no present prospect of completing the Northern Cross Railroad from Meredosia to Quincy. We have been unwittingly led into error on this subject, and probably have misled others. The citizens of Quincy, and all others concerned, may be assured that there will be a railroad connection from the Great Western Railroad with the Mississippi river, and the Hannibal and Saint Joseph Road. The people of Quincy regard it as their interest to form a connection, in preference to all others, with the Military Tract road. The great interests of the State and the country require a connection of the great lines from Meredosia and Naples, with the great Missouri improvement, from the Mississippi to Saint Joseph, and that connection will be had.—Springfield Jour.

This bold, strong voice from Springfield is evidence of an increasing influential interest in the Pike county road.

From the Springfield Advertiser, 3d inst. NEGROES BURNED AT CARTRIDGE.—We noticed last week the recent horrible tragedy near Carthage. At that time the negro belonging to Scott had not been taken. He was caught in the prairie, about fifteen miles from Carthage, taken to the town and tried, and was pronounced guilty, though he refused to make any confession. The negro belonging to Dale had previously confessed the whole matter. They decoyed Dr. Fisk from home by pretending that Mr. Dale's child was sick, and they had been sent for him. He had gone but a little way, when one of the negroes knocked him in the head with an ax, and killed him. They both went to the house—one of them knocked Mrs. Fisk down with his fist, and after brutally accomplishing their desires on her, killed her with the same axe that killed her husband, choked the child to death, set fire to the house in two places, and left.

The citizens of the surrounding country determined to give a warning to all future transgressors of the kind, took the negroes out of the hands of the officers, and burned them on Saturday last, about 10 o'clock. They both made confessions after being chained to the stake, but the Scott negro afterward denied any knowledge of it. They died in about two minutes after the fire commenced burning.

From the Columbia Statesman, August 5. YEARNING MULES.—The other day Mr. Rollins Lyman, of this county, sold forty yearling mules for \$75 each—\$3,000. Sold to Mr. Seaffler of Ohio.

MURDER.—A most desperate and deliberate murder was committed in Gasconade county on Tuesday night, 26th July, by Stephen Howser, on the person of William Farris. Howser is still at large.

ATFRAY IN RANDOLPH.—On Saturday last, at a Barbecue at Thomas' Mill, nine miles northwest of Huntsville, Randolph county, a Mr. Jackson made an assault with a large sportsman's knife, upon Dr. Wm. G. Lowry, cutting him in several places severely; whereupon Dr. Lowry drew a revolver and discharged three shots at Jackson, one of which took effect in the breast, and another in the head. Jackson was killed. Lowry was tried before a justice and acquitted.

"YOUNG AMERICA" MARRIAGE.—The Independence Messenger of July 30th contains the following marriage.—On the 24th inst, near this city, by Nelson Shull, Esq. Henry Clay Owens, aged 16 years, son of the late Samuel C. Owens, and Miss Susan, daughter of Abner Adair, aged 15 years, all of this county. This is a marriage of "Young America!"

MORE FROM THE THIRD DISTRICT. MEMPHIS, (Mo.) Aug 5, 1853. I again inform you of the news of our election, so far as heard from since my last. A traveler who was in Grundy on the day of election reports Lindley's majority in that county at 250. Reported majority in Putnam for Lindley, 30. Adair gives Jackson 92 majority.—Schuyler gives Jackson 63 majority. This county (Scotland) gives Lindley 63 majority—a thing unknown in its history. The usual Democratic majority is 150. I think Lindley is elected.

Lindley and Jackson were both here on the day of election, and made speeches. Lindley got over 200 anti-Benton votes in this county. Republican.

WAX BEADS. JUST Received, a supply of WAX BEADS, at (aug9...411) COHEN'S.

BRANDY. PURE Old Pale and Dark Brandy for Medicinal purposes, for sale at the Drug Store of July 26, 1853—Jas Wm ANDERSON.

## MR. EMERSON'S SCHOOL, HANNIBAL.

REV. DANIEL EMERSON, A. M., will open an English and Classical School for boys in Hannibal on the first Monday in September, in the basement of the Second Presbyterian Church. Terms, per quarter of eleven weeks. For common English Branches, Geography, Arithmetic, &c., \$5.00; Higher Philosophy, Chemistry, &c., \$6.00; Classics, \$7.00; French, German, and Double-Hatry Book-Keeping, each extra, \$5.00; Fuel and care of room, 50 cents.

For information in regard to qualifications and experience, Mr. E. refers to the following testimonials: From President France.—"This may certify that Mr. Daniel Emerson was graduated at Western Reserve College, in August 1839. He was alike distinguished for talent and scholarship, and held a first standing in his class. He is considered as well qualified to instruct in any department of education; but is distinguished for skill in Languages, and would, it is believed, excel as Teacher in a Classic Seminary."

"Western Reserve College," Pres. West. Res. College, Aug. 23, 1841.

From Judge Van Swearingen and Others.—"I concur fully with the sentiments in the certificate of President France, of the qualifications of Rev. D. Emerson to instruct in 'any department of education,' and cheerfully add, that I have been a constant patron of his school, taught here since its organization, and that it is surpassed by none and equalled by few within my knowledge for efficiency and government."

THOMAS VAN SWEARINGEN. "West Ely, June 10, 1853." "We are daily concur in the above recommendations, (aug9Jawm) JOHN M. COMBS, ESQ., JOHN WATSON, ALFRED WARNER."

## CHERRY PECTORAL,

For the rapid Cure of  
COUGHS, COLDS, HOARSENESS,  
BRONCHITIS, WHOOPING-COUGH,  
CROUP, ASTHMA, AND  
CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety far beyond the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmitigated benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—all there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably cures the maladies for which it is employed.

As time passes these facts wider and better known, the medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American Peasant, to the Palace of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, Cherry Pectoral is known as the best remedy extant for diseases of the throat and lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, Cherry Pectoral is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The Cherry Pectoral is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should command itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength, to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

Prepared and sold by James C. Ayer, Practical and Analytical Chemist, Lowell, Mass.

Sold by L. T. Brittingham & Bro., Hannibal; Knightley & Cartwright, New London; T. A. Turnbull & Co., Frankfort; Clifford, Davis & Co., Clarksville; Francis, Walten & Warren, St. Louis, and by Druggists everywhere. August 9th, 1853—Jas Wm

## NEW DRUG STORE.

DR. R. N. ANDERSON, has just opened and will keep constantly on hand a General Assortment of

Drugs, Medicines, Paints, Oils, Varin, Dye-Stuffs, Window Glass, Spices, Perfumery, Soap, Brushes, and every other article usually kept in a Drug Store. These articles have been selected by himself with great care, assisted by one of the best druggists in the State, and he WARRANTS every article sold by him, to be GENUINE AND FRESH.

He occupies the Old stand of Gleim and Mathews, on Main street, opposite the City Hotel. Hannibal, July 26, 1853—Jas Wm

HORACE E. DIMICK & CO., No. 42 Main street, St. Louis, Mo., IMPORTERS and manufacturers of Guns, Rifles, Pistols of the various descriptions. We would respectfully say, that we have the largest and most general assortment of firearms and their equipments that can be found in any house in the United States. We do not think it necessary to enumerate articles, but we will say, if we can not furnish the right sort of articles, there is not much chance of getting them of our NEIGHBORS. Gunmakers material, wholesale and retail.

N. B. The power and accuracy of our arms tested by practical experiments to the satisfaction of the purchasers. No. 42 Main street, St. Louis, Mo. (aug6Jly)

WINE. Pure Old Port, Sherry, Madeira, Claret and Malaga wines, for Sacramental and Medicinal purposes, constantly for sale at the Drug Store of July 26, 1853—Jas Wm ANDERSON.
